

BANG! With our innovative, digital print enhancement systems (digital varnishing and digital metallizing), we inspire our customers in the graphic arts industry worldwide. As a system solution provider, Steinemann DPE, together with its parent company Leonhard KURZ Stiftung & Co. KG - offers perfectly adjusted solutions for the digital print embellishment of printed products. To strengthen our team in St. Gallen-Winkeln we are looking for immediately or according to agreement.

Application Technician International 100 % (m | w | d)

This is what you can do with us:

- Doing customer demos
- Training of operators at the customer
- Doing, analyzing and documenting internal print tests
- Create training materials and technical documentation
- Continuous development of the application system in terms of bandwidth and quality

This is how you convince us:

- Good experience in digital and conventional printing or finishing (screen printing, cold foil, hot foil)
- Knowledge of the label or packaging industry
- High customer orientation, independent, able to work under pressure, team player, flexible
- IT affinity
- English spoken and written, willingness to learn German spoken and written, other languages an advantage
- Willingness to travel

You can expect:

- Motivated and innovative team
- Interesting and varied assignments with a high degree of independence
- Technologically demanding activity
- Family-run company

Please send your application documents to Regina Zingerli (r.zingerli@steinemann.com).
